

„Busy as a Bee“

Biobiene© (German for 'bio-bee') is an innovative range of packaging and foodware service products made entirely from biodegradable and compostable materials, such as co-polyester (PBAT) or PLA-PBAT-blends.

From envelopes to microwavable plates and from packaging chips to party cups, all Biobiene items comply with stringent EN 13432 standards on biodegradability and compostability.
